USB-C to USB-C 3.1 Gen 2 data and charging cable

SKU: ECITTC240W18MMG

It supports Power Delivery (PD) technology of up to 240 W and transfers data at 10 Gbps

Multipurpose: one cable for all your devices

Using a suitable charger, this cable can **even power a laptop** used for charging via USB-C port. In this way, you will use only one cable to recharge and transfer data, and even to transmit a video signal between a laptop and a monitor for example.

Charge and transfer data ultra-fast

The **USB-C to USB-C cable** supports **Power Delivery (PD) technology**, thus allowing **ultra fast** recharging of up to **240 Watts**. If you have a smartphone, tablet, or headset with a USB-C connector, this cable is great for their power requirements. The **E-Mark chips** with which it is equipped ensures energy can be exchanged efficiently and safely, i.e. it avoids any type of pressure surge or short circuit during recharging. Also use it for **transfer data**, by connecting it to a laptop, PC or MacBook and transferring files at a **speed of 10Gbps**.

Ideal for video transmissions with a resolution of up to 4K

You can **transmit an audio-video signal** conveniently and quickly. The maximum resolution supported is 4K: your videos will always be optimal quality.

Durable and anti-tangle

The **golden connectors** and the **metal finish** ensure not only high performance, but also excellent durability. The **anti-tangle cable** also prevents the formation of annoying knots.

Key features:

- USB-C male connectors with 3.1 Gen 2 standard
- golden connectors
- charges your devices and allows data transfers
- supports Power Delivery (PD) technology of up to 240 Watts of power
- ultra-fast charging
- safe power supply thanks to the E-Mark chip
- data transfer at 10 Gbps
- it can also transfer audio-video signals
- maximum resolution supported: 4K
- anti-tangle fabric cable
- cable length: 1.8 m
- metallic finish
